KJ-200™ TOPPER™ Super Salesman™

A combination of two outstanding K-Jack racks. The marriage of the KJ-100™ and the KJ-97™ gives the circulator the versatility not found, in a single rack. The KJ-200™ Topper™ is best used at locations that have an extremely high sales volume, to sell both the Saturday and Sunday editions at the same time, or if space is at a premium, two different publications can join together in one rack.

All K-Jack newsracks are designed to operate with a standard K-Jack mechanical snap-out™ mechanism or our electronic Comp-U-Mech™ mechanism.

▼ STANDARD FEATURES AND EQUIPMENT

▶ APPEARANCE:

- Wood grain or painted panels
- Thirty-Eight standard colors
