## KJ-240™ KJ-280™ TOP-HAT™ TABLOID

The K-Jack Top Hat™ line was designed with the most asked for features of East Coast Papers. Built strong with a vaulted coin box and lock protector inside of the rack, it protects the lock from snow & ice in cold weather. There is no need to clean snow off the rack while collecting money. Our dry film lubricant on our coin mechanism was designed and has been proven durable in extreme East Coast weather conditions. The tabloid KJ-240™ and KJ-280™ are built to display the entire front page. Newspapers are easy to load in the front door. Built with a strong angle-iron and tubular supported front door; these racks can be equipped with a Power door closer™ for the safety of the customer.

All K-Jack newsracks are designed to operate with a standard K-Jack mechanical snap-out™ mechanism or our electronic Comp-U-Mech™ mechanism.
